

## H.S.P.D.

HiTech Integrated Solutions Security Patrol Division (H.S.P.D.) is focused on becoming the Leader in neighborhood security. All H.S.P.D. officers are licensed by the Texas Department of Public Safety Private Security Bureau, and trained in many security and safety practices. HiTech not only looks forward to working closely with the homeowner's association as a crime deterrent, but also looks forward to working with all the individual homeowners in the neighborhood for their safety needs. H.S.P.D. officers will not only patrol the neighborhood during the hours set forth by the homeowners association (the officers will not leave the neighborhood during these hours) but will also respond to any direct call to the officer from a homeowner.

H.S.P.D. will provide the following items and services as part of the contract. Additional items and services can be provided upon request.

- Uniform and Armed Patrol Officer.
- Fully marked and visible patrol car.
- Fully stocked patrol car with the following items: First Aid Kit, Deliberator Machine, Battery Jumpers, and two Fire Extinguishers.
- A cell phone for the homeowners to contact the officer on duty directly.
- First Responder to any security or safety need during patrol hours agreed on.
- Assistance enforcing homeowners association rules such as parking on the street, ECT...

As a bonus to the homeowners HiTech will provide a discounted rate for 24hr security system monitoring. The major benefit of this service is that in the event of an alarm not only with the local police and or fire department be notified, but the on duty patrol officer will be notified immediately and will be able to respond and assist until the authorities have arrived.

H.S.P. D. looks forward to providing you with the best cutting edge security, and building a long time partnership.

*Saving Lives and Protecting Property, it's not just a Promise, it's a Priority!*
